

The image displays two vertically stacked spectrograms. The top spectrogram features a red 'click' label positioned near the bottom right corner. Both plots share a common time axis at the bottom, ranging from 20:48:90 to 20:49:80 in 0.05-second increments. The frequency axis on the right side of each plot ranges from 0 to 10000 Hz, with major tick marks at 0, 1, 2, 3, 5, 6, 8, 11, 14, 20, and infinity (∞). The spectrograms show a dense field of horizontal lines, with a prominent red 'click' label in the top plot.
